

Pronto Web application Instructions

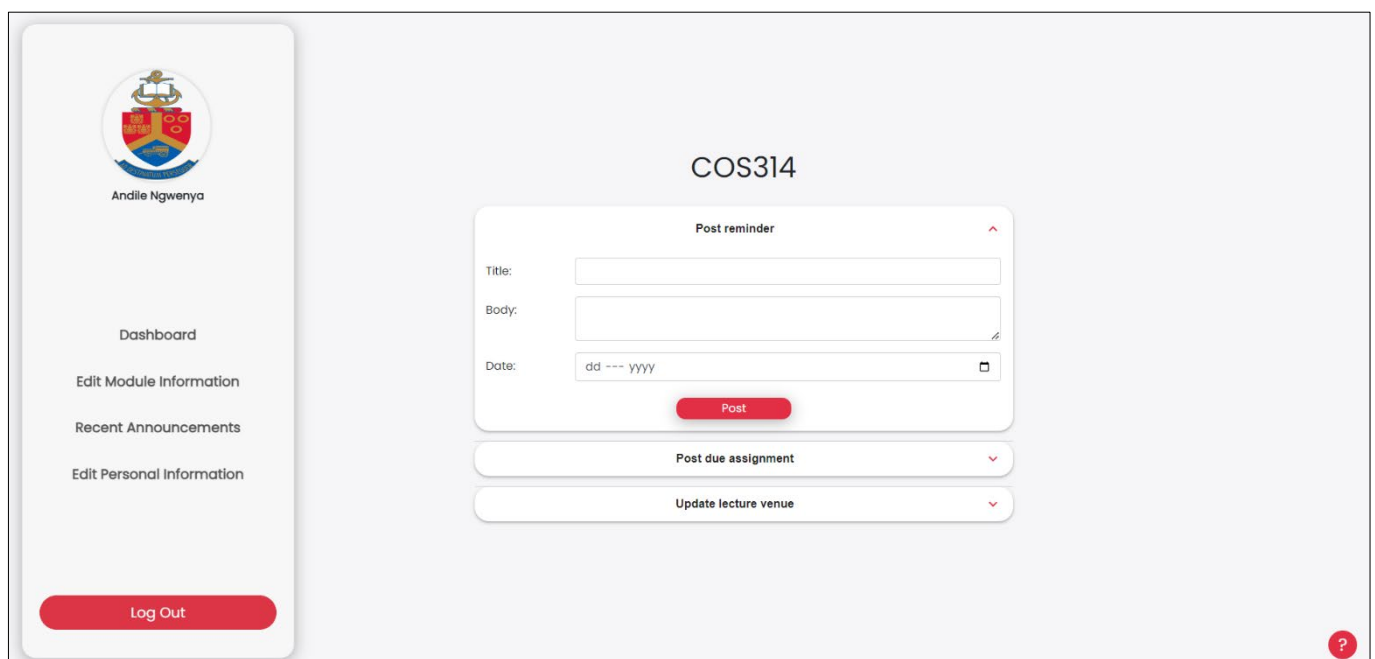

1. Edit Module Information Page

Step 1: Select the module you would wish to make additions to:

The screenshot shows the Pronto Web application interface. On the left is a sidebar with the user's profile (Andile Ngwenya) and navigation links: Dashboard, Edit Module Information, Recent Announcements, and Edit Personal Information. At the bottom of the sidebar is a red 'Log Out' button. The main content area is titled 'Courses' and displays three selectable course buttons: COS314, COS344, and COS301. A red help icon (?) is located in the bottom right corner.

Step 2: Click on the update of choice (posting an important reminder, due assignment, or adding/deleting lecture venues) and a dropdown menu will appear, fill in the valid information and make a post for subscribed students to receive.

The screenshot shows the Pronto Web application interface with the 'COS314' course selected. The sidebar is identical to the previous screen. The main content area is titled 'COS314' and features a 'Post reminder' form with fields for Title, Body, and Date (formatted as dd - - yyyy). Below the form is a red 'Post' button. Underneath the form are two dropdown menus: 'Post due assignment' and 'Update lecture venue'. A red help icon (?) is located in the bottom right corner.

To add a Lecture or test venue, select the activity type and input the building name in the “Venue” field, suggested locations for the venue from google API will appear. The lecturer can confirm that the coordinates on the map are correct and add the venue to the module.

COS314

Post reminder

Post due assignment

Update lecture venue

Select Activity

Venue: Search Places...

Map showing University of Pretoria campus with various buildings and streets.

Add venue

2. Recent Announcements Page

The lecturer can navigate to this page to see a list of all the announcements they have recently posted (in chronological order) with information such as the subject, date posted and post content.

Recent Announcements

COS314 2023-08-28

Practical 6

The new practical has been released

DELETE

COS314 2023-08-28

Final test

Keeping the page limit to 2 since thats what fits on my screen

DELETE

Load More

The “Load More” option will fetch and load older announcements, and if there are any issues with an announcement, the lecturer may simply click options button and delete the post.

3. Edit Personal Information page

Information such as the Lecturer's name (for example, in the case of a surname change) and email address can only be changed via Institutional Admins updating them in the lecturer database, and thus can only be done through contact with an admin. A lecturer can however change their password from this page, by clicking on the dropdown and following the prompts to update it.

The screenshot displays a web application interface for a lecturer's personal information. On the left is a sidebar with a university crest and the name 'Andile Ngwenya'. It contains a navigation menu with 'Dashboard', 'Edit Module Information', 'Recent Announcements', and 'Edit Personal Information', along with a red 'Log Out' button at the bottom. The main area is titled 'Personal Information' and shows a form with the following details:

Field	Value
Name:	Andile Ngwenya
Role:	Lecturer
Email address:	ndie2001@gmail.com

Below the form is a 'Change Password' modal. It contains three input fields: 'Old password:', 'New password:', and 'Confirm password:'. A red 'Update' button is positioned at the bottom of the modal. A red circular icon with a white question mark is located in the bottom right corner of the page.

Although it needn't be pointed out, the lecturer can logout at any time from the nav bar.
